# Certification of tail status for imported docking breeds with long tails

**Procedure:**

- *This confirmation is only applicable for dogs with long tail. Dogs with bobtail must be DNA-tested (further info at DNA-laboratorier, tester, raser)*
- *The examination of the tail and confirmation of tail length must be performed by a veterinarian, or a conformation judge authorized for the breed.*
- *Fill in the dog/owner part of the form and bring the form to the veterinarian or judge doing the examination.*
- *The form must be signed and sent to the NKK together with the other registration papers of the dog, for registration in the NKK. Optionally by e-mail: registrering@nkk.no*
- *It is not mandatory that the confirmation is written in this specific form. If another layout is used, please make sure that all the information we ask for below is included.*
